Summary of Revenues and Expenditures
For the Month Ended May 31, 2025

Expenditures

- Utilities Fund year-to-date actual operating expenditures are at 53% of the budget and at 59% including encumbrances.

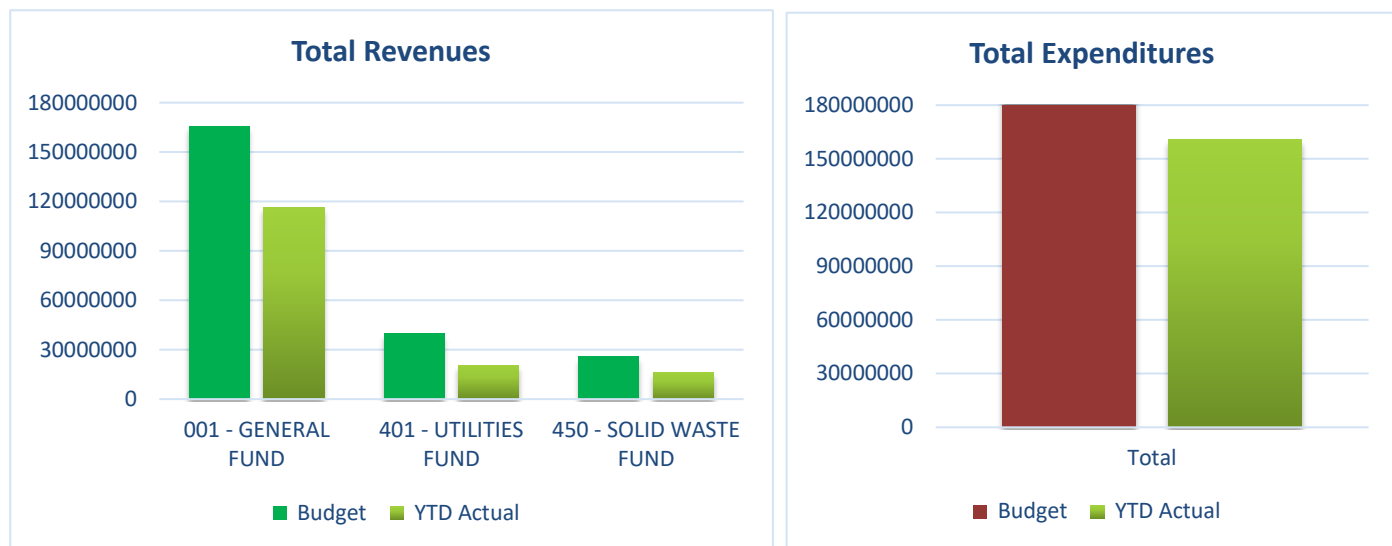

Solid Waste Fund

Revenues

- Solid Waste Fund revenues are at 63% of the budget or \$16.3M down \$1.7M from FY24, which reported 68% of the budget or \$18.0M at 05/31/24. The difference in revenue was due to litigation proceeds received last year which was non-recurring revenue.

Expenditures

- Solid Waste Fund year-to-date actual operating expenditures are at 4% of the budget and at 63% including encumbrances.

In general, revenue streams across all funds are accrued to the prior fiscal year and/or lag a month or more. Overall, total actual revenues are 46% of the budget, primarily due to ad valorem tax revenues, fire protection assessment collections, utility services, and state revenues.

The year-to-date actual expenditures are at 40% of the budget and at 56% including encumbrances. In some cases, the percentage of budget utilized may exceed the percentage of the budget lapse, which is 8%. This is primarily due to the encumbrances for contractual obligations being recognized at the start of the fiscal year. This applies to General Fund-Public Safety, Building Fund, Insurance Services Fund, and various Capital Project Funds. As actual expenditures are paid and recognized, the encumbrances will be reduced and offset actual expenditures.

As of May 31, 2025, the City is trending towards meeting its adopted budget targets. No significant changes are anticipated at this time.
